

## ENVIRONMENTAL HEALTH & SAFETY POLICY

Material Sampling Technologies has created this policy as part of a comprehensive integrated management system. Our IMS is focused on protecting the environment, its customers, its employees and other interested parties.

- This policy was established, implemented and will be maintained within the defined scope of our integrated management system
- It is appropriate to the purpose and context of our organization including the nature, scale and environmental impacts of our activities and services we provide
- Our organization commits to comply with all applicable local, state, federal, and other legal and regulatory compliance obligations
- We are firmly committed to continual improvement of our IMS
- We utilize this system to understand all aspects of our company and the potential and significant impacts we can have on the environment, and to create environmental objectives
- We are committed to the prevention of pollution and protection of the environment as well as other commitments relevant to the context of our organization
- Our organization is committed to the principles of Social Accountability
- We will use this policy to establish, reduce, and improve our performance in preventing injury and ill health
- This policy is made available to all parties inside and outside of the organization, and is communicated to employees through routine awareness and training sessions

At MST we understand that protecting the environment is a global initiative, and through this policy, and our commitment to ISO 14001, we continue to make a positive contribution to society.
